Re: Status of Notice-of-Violation, Draft Phase I OU-8 RFI/RI Workplan

Dear Messrs Vaeth and Zane,

The Colorado Department of Health, Hazardous Materials and Waste Management Division (the Division), hereby informs DOE that the subject NOV will be considered resolved when DOE achieves compliance as follows:

- o Determination by the Division that a draft workplan satisfactorily addressing the deficiencies as noted in the NOV was, in fact, submitted on June 22, 1992,
- o Determination that DOE is adhering to the intent of the resolution of dispute as signed by the Project Coordinators on July 7, 1992 in resolution of the formal Dispute brought by DOE on June 5, 1992. Specifically, DOE shall:
 - continue to seek additional opportunities to improve the current acquisition process including the use of detailed acquisition planning and contract structuring to allow utilization of subcontractors on all phases of environmental restoration work, and
 - inform CDH and EPA of progress towards ensuring that acquisition planning is streamlined and supports the IAG. This will done through three letters dated on or about the 7th day of August, September and October, 1992.

3778-PF-92

10860 1063

Additionally, the progress of acquisition will be included in the Environmental Restoration Program Monthly Reports prepared by EG&G Rocky Flats, Inc.

Furthermore, the NOV was issued by the Division's Monitoring and Enforcement Unit, thus final resolution should be discussed with Fred Dowsett.

Your may address any questions on the content of this letter to Harlen Ainscough of the Division's Hazardous Waste Facilities Unit at 331-4977.

Sincerely,

Gary W. Baughman, Unit Leader
